EVERLYWELL™ COVID-19 HOME COLLECTION KIT

Can be used by individuals prescribed at home, following an online screening reviewed by health care provider

- SELF-COLLECTION KIT INCLUDES: INSTRUCTIONS, NASAL SWAB, SALINE TUBE, SHIPPING MATERIALS, OVERNIGHT RETURN LABELS, BIO-HAZARD DISPOSAL
- AUTHORIZED FOR TWO COVID-19 DIAGNOSTIC TESTS AT SPECIFIC LABORATORIES

FDA Authorizes First Standalone At-Home Sample Collection Kit

FDA’s Timely Emergency Use Authorization (EUA) to Everlywell, Provides Access to Screening While Decreasing Infection Risk

“THE AUTHORIZATION OF A COVID-19 AT-HOME COLLECTION KIT THAT CAN BE USED WITH MULTIPLE TESTS AT MULTIPLE LABS...PROVIDES INCREASED PATIENT ACCESS TO TESTS. BUT ALSO PROTECTS OTHERS FROM POTENTIAL EXPOSURE.”
JEFFREY SHUREN, M.D., J.D.

FIRST EUA FOR A COVID-19 ANTIGEN TEST

The first EUA (Emergency Use Authorization) for an antigen test is within a new category of tests. Using nasal cavity swab samples, it quickly detects fragments of proteins found within the virus.

AUTHORIZED 100 TESTS UNDER EMERGENCY USE
85 MOLECULAR
12 ANTIBODY
1 ANTIGEN

DIAGNOSTIC AND ANTIBODY TESTING

Covid-19 testing methods include serological, finger prick, blood draw, nasal swabs, and saliva samples to test for active and past infections.
